MDC85

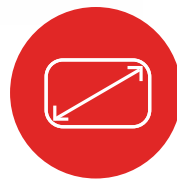

Quick Release HD Dash Camera

720p HD
video recording¹

100° wide
angle lens

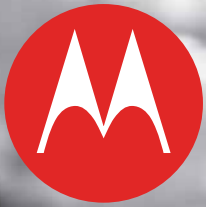

2" diagonal
color screen

Automatic collision
detection and recording
with G-sensor

Keeping an Eye on the Road

The easy-to-use Motorola MDC85 HD dash cam includes a 2-inch coloured display that records audio and streams 720p HD quality videos. Capture the road and its surroundings with the wide 100° field of view angle lens. Always count on the Motorola MDC85 to have your back with automatic incident detection (G-Sensor). It detects when collisions occur so that your camera knows to record the incident and save the complete event.

motorola

Driving With Innovation

The MDC150 dash cam by Motorola is designed to give you added reassurance on the road. You can rely on this dash cam to be an extra eye on the road. It comes with an easy-to-use 2-inch color display that streams videos in amazing clarity 1080P HD quality and strong colors, thanks to the 2.19MP Sony sensor. An outstanding 150° field of view lets you capture the road and its surroundings. Drive safer with the inclusion of several smart features. The dash cam features an automatic collision detection sensor (G-Sensor) to capture and save the complete event when an incident is detected. Other noteworthy features include Lane Departure Warning and Forward Collision Warning. Lane departure warning alerts you if you stray from your lane, while forward collision warning alerts if you drive too closely to the car ahead.

Features

- Full HD 1080p resolution @30fps¹
- 2" LCD display
- 140° wide viewing angle
- Collision detection and record with G-sensor
- Low lux sensor for superior night vision
- Loop recording of incidents
- Auto-save on Micro SD card up to 32GB²
- Built-in speaker & microphone
- Rechargeable battery and car charger included
