Monitor Your Home from Anywhere

The Motorola FOCUS71-W is an indoor, Wi-Fi® camera with Full HD (1080p) encrypted video streaming and AI features, straight to your compatible smartphone or tablet. Download the Hubble for Motorola Monitors app to set up SmartZone boundaries around your home and receive real-time sound and motion alerts. Use it in the nursery or playroom to monitor your little ones, check-in on your pets and watch over your home while you're away, for extra peace of mind. The base of the camera is wall mount ready, so you can choose to set it on a surface or mount it to the wall, anywhere in your home. Designed to help you monitor every corner, with digital zoom and a 90-degree wide angle view, so you can oversee an entire room and zoom in to get a better look. Use the night vision feature to monitor your home, in the dark, and the true color filter to oversee lowly lit areas. Stay connected to your loved ones by speaking to them through the two-way talk and hear them speak back. Save video history on a microSD card that supports up to 32GB (sold separately) or store it in the cloud, so you can go back and replay old footage.
