Unlimited Playtime. Zero Limitations.

3-in-1 True Wireless Headphones

Motorola's patent pending Tri-X technology is a ground-breaking solution that provides a hassle-free solution for complete freedom without compromising on a secure fit or battery life. Whether you're hitting the gym or heading out of town on a business trip, Tech3 adapts to your needs every step of the way.

Choose between the flexibility of True Wireless mode, Sport Loop mode (which provides a sleek neckband for additional stability), and the world's first to market True Wireless headphone "direct plug-in" mode.

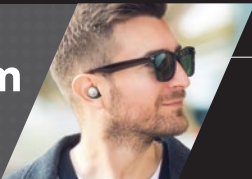

No matter the level of the buds battery remaining, you can continue using your buds for as long as you choose. This mode works with any mobile or audio device and even airplane TV systems. Complete with rich stereo sound, touch control features, Alexa, Google & Siri support, IPX5 water resistance and an ergonomic fit – Three wear styles. Unlimited playtime. Zero limitations!
